- A fast leaner

Upwork Profile link:

<https://www.upwork.com/freelancers/~018c86a1e163d35ee2>

Python Programming:

I learnt Pythonprog. language myself in class 9th and have done various automation tools. Such as Meme_Trading_telegram_bot. Youtube _comment_bot.I have a solid knowledge of various python libraries , can automate any required task for time and energy efficiency.

Wordpress website Devp:

For one of my SAAS project, I made a website on wordpress using Hostinger, elemneto and some wordpress tools.(the project got failed, but still I have the ownership of the website)

WEBSITE URL : <https://upcmts.com/>

Voice cloning:

I have expertise in cloning voices to produce speeches in the same voice . Just I need clean audio samples of an person around 10minutes and I will create a cloning of the voice .

Then I can generate speeches in the voice from any TEXT or AUDIO.

Link of the projects I have been completed

AI voice dubbing:

I can dub audio from any language into any language of your choice. The new audio can be in the same voice or a different one. Here are links to my completed projects:

Examples:https://drive.google.com/drive/folders/1Vd1k_oF_p7VZw-610uMiQbveODvEcAK3?usp=sharing

Video editing:

I am not a professional hardcore editor but learnt some basic video editing myself in recent years,

Here are one of my projects I did for a editing competition:
